

Join us for our fifth eye camp in the Himalayas this November!

The ThirdEyeVision foundation is a non-profit (501C3 pending) that has been bringing sight to the less fortunate angels we share this planet with. Since our inception in 2009, we have traveled to different countries where we felt the need to be the greatest due to their challenging terrain and their lack of eye care readily available. Our goal has always been to create sustainable facilities with proper equipment and trained staff essential for proper patient care.

Here are ways you could help...
(After all, people who give are just cooler)

Money:

- \$100 provides 200 pairs of eyeglasses
- \$250 provides 500 pairs of eyeglasses
- \$500 provides equipment for glaucoma testing
- \$1,000 provides multiple cataract surgeries
- \$2,500 helps us educate and train staff
- \$5,000 helps us keep the facilities running when we're not present

Things:

- Donate your airline miles to help our doctors and helpers get to our eye camp sites
- A-Scan
- Keratometer
- Phoropter
- Surgical instruments

Time:

- We need help getting our message out and email our newsletter so that we can raise awareness
- Help us finish our 501C3 application
- Tech savvy? Help us keep our website and social media pages current and vibrant.
- Donate an hour or two week to help us keep our goal and mission afloat.

If you would like to volunteer please contact us at thirdeyevisionteam@gmail.com
